SENATORIAL RACE IN DOUBT

May Take Official Count to Decide.
McCreary Carries Louisville By
7,000--Both Sides Confident.

HAGER WINNER OVER HAYS IN THE GOVERNOR'S RACE

Hays Carries Louisville By 7,000, But Hager
Makes Winning Race Out in the State.

A telephone message to the News just before going to press this morning states that the result of the election held in Kentucky yesterday to name the nominees of the Democratic party is yet in doubt. The race for United States Senator is very close and will probably take the official count to decide it. McCreary carried Louisville by 7,000 majority. Both McCreary and Beckham are confident of victory.

In the race for Governor the returns are favorable to Hager, though both sides are claiming the race. Hays carried Louisville by 7,000. Hager made a winning race out in the State and there seems little doubt of his nomination.

BEN JOHNSON BIG WINNER

Democratic Nominee For
Congress Wins By Over
5,000 Majority.

CARRIES THIS COUNTY BY 100

In the race for Congress in this district Hon. Ben Johnson, Democratic nominee, was an easy winner at the polls yesterday, rolling up a majority in the neighborhood of 5,000. Mr. Johnson's majority in this county over Heaverin, his opponent, exceeded hundred.

LONG ILLNESS

Washington Lane Ends in Death
on Last Saturday Afternoon.

Death ended on last Saturday afternoon the long suffering of Washington Lane. For six years Mr. Lane had been a cripple, invalid from paralysis and during that time had never been able to get out of his bed. Deceased was sixty odd years of age and was a life-long resident of this city, everybody knew Washington Lane and everybody liked him. He was ever ready to do a favor, and when an accommodation was wanted by any one Washington Lane was called on. That was in the days when he enjoyed health, and when adversity came many remembered him and ministered unto him until death relieved his sufferings. The irritable and argy-bargy, nervous, suffering, ill, at regular intervals, ed to dread the purchased of contain no house and lot, leave no effort at present or stomach at Elm streets, for They give poor. O. B. O. I have a sale. years. I have a sale. using Dr. Miles' relief of the master. E. T. W. rest. He had been appointed farmer at the Cloverport landing, succeeded Mr. Hager. He was informed that the freight at the upper landing will be moved to the lower landing in a short time.

EIGHT OUT OF ELEVEN

Democrats Elect Eight
of Their Nominees
For Congress.

In the election held for Congress in the eleven congressional districts in this State yesterday the Democrats carried eight. Shirley, the Democratic nominee in the Fifth, was elected; Johnson in this, the Fourth, was a big winner; In the First, Second, Sixth, Seventh, Eighth, and Tenth District the Democratic nominee were also winners.

STRICKEN WITH PARALYSIS

John Lillard Suffers Stroke On
Last Sunday Evening--Left
Side Paralyzed.

While on a business trip to his farm, near Skillman, on last Sunday afternoon, Mr. John Lillard, of this city, was stricken with paralysis, the whole of his left side being affected. At the time of the affliction Mr. Lillard was in the horse lot on his farm and was preparing to return to his home in this city. He had alighted from his horse to go to the house for his overcoat and had gone only a few steps when he was stricken. He was assisted to the house and Dr. A. A. Simons was telephoned for.

The attending physician pronounces his case quite serious, but is hopeful that he may entirely recover. As yet he has improved but little, though he was able to be brought to his home here yesterday morning.

Died of Diphtheria.

Little Ruth Windelkin, the five year old daughter of Dr. and Mrs. Chas. Windelkin, died yesterday morning at 11 o'clock after a short illness of diphtheria which affected her heart. The funeral and burial services will be held this morning at the Cloverport cemetery conducted by the Rev. B. M. Currie. Ruth was the younger of Dr. and Mrs. Windelkin's little daughters. She was a joy and great source of pleasure to her fond parents and devoted sister. To her little friends Ruth's absence will be a deep grief.

HUGHES OR HEARST

Republican Nominee For
Governor in New York
Claims Victory.

HUGHES LOOKS A WINNER.

Hearst Says He Has Won, Though
Incomplete Returns Bear Out
Hughes' Claims.

In the race for Governor of the State of New York yesterday, Hughes, the Republican nominee, is claiming the victory over Hearst, the Democratic nominee by a majority of 40,000. Hearst managers, however appear confident of victory.

REPUBLICAN VICTORY

In Three Congressional
Districts In the State
Yesterday.

The Republicans elected three of their candidates for Congress in this State yesterday. Hays defeated James Richardson the Democratic nominee in Third, Bennett, the Republican nominee in the Ninth, and Edwards, Republican, in the Eleventh, were also elected.

WINFREY AND HENDRICKS

Look Like Winners in Their Respective Races Yesterday.

Incomplete returns give W. O. Winfrey a majority over E. A. Gullion in the race for Superintendent of Public Instruction and John K. Hendricks' nomination for Attorney General is very probable.

NOVEMBER WEDDINGS

Cupid Gets Busy With Many
Hearts.

Macy--Compton.

Announcement is made of the approaching marriage of Miss Sallie Compton, of Raymond, to Mr. Glen Macy, of Garfield, which will take place at the home of the bride's parents, Mr. and Mrs. Taylor Compton, on Sunday, November 11, at 2 o'clock, p. m. The bride-elect is a well known young lady and is quite popular among her acquaintances. The prospective bride groom is the son of Mr. Benjamin Macy, of Garfield. They will reside at Garfield.

Dowell--Dowell.

Irrington, Ky., Nov. 5. (Special.) Mr. and Mrs. S. C. Dowell announce the marriage of their daughter, Nellie, to Mr. Lon Dowell on Wednesday, Nov. 14, at the home of the bride. Rev. E. W. Graves officiating.

Marriage Announcement.

The following marriage announcement has been received at The News office:

Mr. and Mrs. Francis Ritchie invite you to be present at the marriage of their daughter Lena Francis to

Mr. T. C. Hamilton Wednesday morning, November 21, Nineteen hundred and six, Nuptial mass at nine o'clock St. Martin's Catholic church, Flaherty, Kentucky.

Author of Popular Nursery Rhymes. The familiar nursery rhyme, "Mary Had a Little Lamb," was written by Mrs. Sarah J. Hale.

FORM NEW UNION

Farm Laborers Unite For Mutual
Protection--Outgrowth of
Organization of Tobacco Growers.

Nashville, Tenn., Nov. 2. As a direct result of the operation of the Dark Tobacco District Planters' Protective Association of Tennessee and Kentucky, which has battled with the Tobacco Trust for two years and succeeded in partially restoring the former good prices for tobacco, the first regular union of farm laborers in the South has become a reality, and a strong effort is being made to extend it to all parts of the tobacco-growing sections of the two States.

An explanation of the foregoing is necessary, since the latter organization is in no sense a creature of bad conditions brought about by the planters belonging to the protective association. The leaders of the union contend that through the work of the Executive Committee of the Planters' Protective Association conditions have changed materially so far as the interests of the planters and land owners are concerned, while the old conditions exist for day laborers and tenants. The Dark Tobacco District Planters' Protective Association operates over much of the tobacco section, including a good portion of the two States, and since the organization of that association there has been a quiet effort on foot among the share-workers to reap some benefit from the improved conditions. This week it became known that the share-croppers and farm laborers had launched their movement in Logan county, Ky., and Robertson county, Tenn., the leaders claiming a membership of several thousand. Only those who till the land for a portion of the products and those working for daily or monthly wages are eligible to membership in the union.

The demands made upon land owners are not to take effect until the first of January, 1908, but the committee is now preparing a long list of items to be presented to the land owners that they may have time to consider the matter before the season for signing contracts next year. In these demands are all the following items: Half of all the tobacco and corn produced and everything furnished; must have two acres of corn to every acre of tobacco; half the wheat where the cropper furnishes half the seed and fertilizer, or one-third where the landlord furnishes everything; \$2 per day for wheat harvest; \$1.25 and dinner per day for threshing; hay harvest, corn shredding, etc.; \$15 per month and board on yearly contracts, and \$19.50 for single month work. Croppers must have horse to

tend garden, all coal and wood furnished and pasture for enough hogs to supply his meats and cow and horse. These demands have not yet been presented to the landlords, but will be presented in time for consideration next year. So far as is known the land owners have no intention of conceding the demands, and some residents of that section fear that the farm labor question next year will be even more serious than it has been in the past two years. For several years the farmers of this section have been unable to get the required number of laborers, and the outlook for the future is by no means encouraging. Members of the Planters' Protective Association contend that the new union will amount to nothing, but many think it will grow rather than die out. What is known as the "Hill Billies," who oppose the methods of the Protective Association, are said to be urging the laborers on in their new move, and have organized an association to fight the Protective Association. In Trigg county, Ky., last week a number of the "Independents" met and started a move to pledge protection to independent buyers who had been warned by the other associations not to enter that county, and about a 100 names were signed to the list. This move is a result of the move on the part of the Protective Association to have all its members sell their tobacco only through the sale agents of the association and a pledge made to keep other buyers out of the county. This law of the association applies to all the tobacco counties, but it is only in Trigg county that the opposition has organized thus far. With three warring organizations in the field it is entirely probable that interesting incidents will be numerous for the next few years.

THE CITY COUNCIL

Action Taken In Regard To Training School For Cloverport at Regular Monthly Meeting.

The regular monthly meeting of the city council was held on Monday night. A full quorum was present. The monthly report of the city officials were received and filed.

The following gentlemen constitute the Board of Equalization for Cloverport for the ensuing year, as appointed by the city council: W. G. Smart, Dr. A. A. Simons and Henry Solbrig.

The question of the city appropriating a sufficient sum for the purchase of a two acre lot as a site for the proposed training school in Cloverport was brought before the council. A committee was appointed to confer with Dr. C. W. Musgrove, who is at the head of the new movement to ascertain the site selected for the building and all other matters connected with the project. The committee was favorably impressed and will recommend that the council appropriate the money for the site, which practically insures the location of the school here in a short while.

DIPHTHERIA Causes Primary Department of School to Close.

The prevalence of diphtheria in the city has caused the closing of the primary department of the Cloverport graded school. Several cases of the disease have developed and two deaths have occurred as a result. However, it is not thought that the disease will spread and that there will be any more fatalities.

The school management took the above steps as a precaution and are of the opinion that the disease will be checked sufficient to resume the primary department in a few days.

Notice to Farmers.

We are in position to handle all the Pledged Tobacco that will come to Cloverport, and would suggest to farmer that they tie in neat, small hands and keep all housebored and damaged tobacco to itself, as mixed through crop would lower grade.

Will be opened ready to receive November 20, 1906, commencing at Oglesby's barn.

Barney Squires, Rehandler; E. B. Oglesby, Com.

IF YOU
TOUCH
your tongue to
ALUM

and look in the glass--you will see the effect--
You can't help puckering--it makes you pucker
to think of tasting it.

By the use of so called cheap Baking
Powders you take this puckering, injurious Alum
right into your system--you injure digestion
and ruin your stomach.

AVOID ALUM

Say plainly--

ROYAL BAKING POWDER

Royal is made from pure, refined Grape Cream of Tartar--Costs more
than Alum but you have the profit of quality, the profit of good health.

KENNEDY'S LAXATIVE
CONTAINING HONEY AND TAR

CARR'S
TRADE
LETTER.

As we read the signs, there is ap-
proaching a period of increased specu-
lation in wheat. Nothing which has
been given to the public of late con-
cerning wheat is so surprising as the
details of the Northern Wheat publi-
cized for the first time to-day by a
trade paper of high authority at Min-
neapolis. It shows that some of the
big mills there have been forced to shut
down because, after having paid 3 1/2
cents premium over December prices,
they are unable to get enough milling
wheat out of the daily receipts to keep
their mills going. Very light market-
ing of Spring wheat is not altogether
due to the inability of railroads to
move the grain to market, but very
largely to short of wheat and a firm
milling points Northwest and all the
milling interests in the territory tribu-
tary to St. Louis and Kansas City are
reporting excellent flour sales and their
shipments limited only by scarcity of
cars. As we noted a few days ago, for-
eign markets are taking a much firmer
tone. Present reports from Argentine
count for little as it is yet two months
to early harvest and the climatic condi-
tions uncertain. At present there are
only 8,000,000 bushels more wheat in
Argentina than in November, 1905. Low
light than November means that wheat
and flour to move into consumption and
out of the country for export freely.
These things have laid the foundation
for a much stronger speculative market
in the months to come.

Up to this time, the offerings of new
corn to the cash interests in this trade
have not been more than one tenth
what they were in many years previous.
There is no such movement of old corn
nerves to make room for the new
crop as predicted. Light export busi-
ness from this side has created a firm
feeling in foreign markets. Unsettled
weather has caused light receipts. The
"Indian Summer" period will deter-
mine the early movement from the new
crop. If it is not much heavier than
now indicated, and prices of live stock
continue at a level to induce heavy
feeling, we foresee a gradual harden-
ing of the price on May contracts. We
wish to reiterate, for the benefit of all
grain raisers who may be readers of
this letter, that nothing can be lost by
continuing to sell corn on the market
while it contains about 15 per cent of
moisture. At the same time, we are firm
believers in higher prices on future con-
tracts before the winter is over, and
believe that the man who has surplus
corn to sell can catch the market both
ways by selling his cash corn on a fair
market now and buying some May corn
for any advance which may take place.
Think farmers who are direct shippers
need not be told that there is a profit
of several cents in doing their own
marketing.

There is no activity in the oats trade
at present. Receipts contain a very
small proportion of standard oats.
Stocks against which speculators can
trade will be light for months to come.
If May prices have a little break, under
steep, believe buyers can take hold
safely. CARR.

Miles quickly and positively cured
by Dr. Shoop's Magic Ointment. It's
made for Piles alone—and it does the
work sure and with satisfaction. Itching,
painful, protruding or blind piles
disappear like magic by its use. Large,

Worsham Hamblenton.

Miss Marion Vance Hamblenton and
Mr. Ludon Worsham were married
yesterday at the home of the bride's
parents, Mr. and Mrs. J. D. Hamblenton,
321 East Oak street, the Rev. Dr. Mason,
of St. Andrew's church, officiating. The
attendants were Miss Sue Roberts Wat-
kins, of Owensboro; Miss Margaret
Moorman, of Cloverport; and Miss Helie
Belle Pappas, of Anchorage, and Mr.
John Worsham, of Henry, best man.
After a wedding luncheon the couple
left for a bridal trip East—Thursday's
Louisville Times.

Scrofula

Is very often acquired,
though generally inherited.
Bad hygiene, foul air, impure
water, are among its causes.
It is called "the soil for
tubercles," and where it is
allowed to remain tubercu-
losis or consumption is
pretty sure to take root.

Hood's Sarsaparilla
Removes every trace of
scrofula. Get Hood's.

For testimonials of remarkable cures

The City of Munich.
Munich is one of the most beautiful
cities in Europe, with broad streets,
frequent fountains, many stately stat-
ues, numerous open squares, large
wooded parks, a swift river flowing
directly through the center of the
residence section, galleries that contain
several of the finest recollections of
pictures and sculpture in the world, li-
braries, academies of design, schools
of science, a magnificent opera house,
a theater that was erected exclusively
for the production of Wagner's operas,
and various other attractions which do
not disturb the classic atmosphere,
but appeal to the artist, the student
and whoever seeks for beauty and for
rest. No city of equal size has so many
notable monuments and public build-
ings, while probably a larger number of
the population of Munich is engaged
in study and artistic and scientific pur-
suits than in any other city in the world.
The Royal library is one of the
greatest in existence, probably second
only to the British museum.—William
E. Curtis in Chicago Record-Herald.

Moving on the Installation Plan.
An expressman who called at a
Ninety-second street boarding house
or two trucks was asked by the land-
lady where they were going.
"I don't know," he said. "You see, I
do only half the hauling. I will take
the things to my office, and somebody
else will take them the rest of the way.
The boss at the desk will know the ad-
dress. The moving is done on the in-
stallation plan to keep you from hear-
ing from finding out where the other peo-
ple went. They were afraid to trust
me with the number for fear you might
worn it out of me, so they told it to
nobody but the manager. Lots of peo-
ple who move often make the trip in
sections like that. Half the time when
I take a truck away from a boarding
house I don't know where it will wind
up. That is generally done when there
has been a row and the folks who leave
don't want to be followed. Been in the
trouble here, I imagine," he added
tentatively.

"Yes," sighed the landlady, "a little."
—New York Sun.

Where Cleero Took the Mud.
Marcus Tullius Cleero bathed in the
mud of Lake Agassiz 2,000 years ago
in order to get rid of the gout. The
mud of the standing waters in the dis-
trict west of Naples was famous from
early times for the relief of arthritis.
The luxurious high livers of the im-
perial days knew its efficacy and no
doubt did their "cure" there in much
the same rough and ready fashion as
their modern representative does now.
It is no doubt to be noted that the
other deposits that the mud of the lit-
tle lakes on the promontory of Cumae
owes its health giving properties, and
the nature waters used by the same
now in that region as she did in the
times of the Caesars the effect upon
twentieth century gout is probably
much the same as was felt by the
lakes. The high livers of the im-
perial days knew its efficacy and no
doubt did their "cure" there in much
the same rough and ready fashion as
their modern representative does now.

WEDNESDAY NOVEMBER 7, 1906

SAMPLE.

J. H. Roberts was in Hardins-
burg Friday on business.Mrs. J. H. Miller and little
daughters, Mary Judith, and Miss
Lucy Jolly were in Stephensport,
Friday, the guests of Mrs. Sallie
Bennett.Mrs. Graham Jolly was in
Stephensport Friday shopping.F. A. Dowell was in Hardins-
burg, last week.Miss Ruth Ahl, of Evansville,
who has been visiting here, was the
guest of her uncle, John Dowell,
of Union Star, last week. Miss
Ahl will return home soon, ac-
companied by her grandfather, F.
K. Dowell.The hauling is a leading industry
here now.There was a merry house party
formed at H. F. Dowell's Sunday.
Those present were: Misses Eva
and Bessie Brumfield, Katie Lee
Jolly, Eula Roberts and Ruth Ahl,
Messrs. Floyd and Carl Arm-
strong, of Rockhaven, Norton
Brumfield, Willie Gibson, Dennis
Roberts and Robert Weedman.
All had an enjoyable time.

A Year of Blood.

The year 1905 will long be remembered
in the home of E. N. Tackett of Ali-
ance, Ky., as a year of blood; which
flowed so copiously from Mr. Tackett's
lungs that death seemed very near.
He writes: "Severe bleeding from the lungs
and a frightful cough had brought me
at death's door, when I began taking
Dr. King's New Discovery for Consump-
tion, with the astonishing result that
after taking four bottles I was com-
pletely restored and as time has proven
permanently." Cured Guaranteed for
Sore Lungs, Coughs and Colds, and
Sore Throat. Price 50¢ and \$1.00.
Trial bottle free.

United Brethren Notes.

The ladies of the United Brethren
church will give a pie supper in the
dining hall at Tar Springs Saturday
night, Nov. 10.The Building Committee of the
United Brethren church at Tar Springs
will receive Seed Beds Saturday
Nov. 10. Address C. W. Musgrove,
Cloverport, Ky.Need a good cathartic? A pill is best.
Say a pill like DeWitt's Little Early
Risers. About the most reliable on the
market. Sold by All Druggists.

Died.

Carl Perkins, son of Mr. and Mrs.
Richard Perkins, died at the home of
his parents, on Friday afternoon, of
diphtheria, at the age of one year. The
body was buried in the Taul grave
yard on the following day. The little
fellow was the joy of the home and his
taking away was a sad affliction to
the loved ones, who are deeply sym-
pathized with in their sorrow.**Help! Help!
I'm Falling**Thus cried the hair. And a
kind neighbor came to the res-
cue with a bottle of Ayer's
Hair Vigor. The hair was
saved! This was because
Ayer's Hair Vigor is a regular
hair medicine. Falling hair is
caused by a germ, and this
medicine completely destroys
these germs. Then the healthy
scalp gives rich, healthy hair.The best kind of a testimonial—
"Sold for over sixty years."**Ayer's**

Golden Wedding Celebration.

K. of P.'s Hold Meeting—
Other News Notes.Mrs. Charlie Beard returned to
Hardinsburg Friday, after a few days
the guest of Mrs. Nora Beard.Mr. Foster Lyons and wife, of Big
Spring, are spending the week, the
guests of Mr. Jonas Lyons and wife.Mr. Fred S. Chamberlain and wife
arrived Sunday from Memphis, Ten-
nessee, where they have been for the
past two weeks.R. L. Jordan will return to Hopkins-
ville this week after a short visit to his
mother, at Bewleyville.Miss Lucy Barr, of Owensboro, spent
Wednesday and Thursday, the guest
of Mrs. E. W. Graves.The Honor Roll for the month ending
Oct- is the following: Walter Piggett,
Kendrick Jolly, Kathrine Wimp, Eliza
Piggott and Mary Herriot. Honorary
Mention, is due King McGhee and
Alford Herndon. Miss Irene Smith,
Teacher.After quite a spell of illness, Mr. Jim
Jarett is able to be out again.Mr. James Smith and family will leave
Friday for Oklahoma.L. D. Bishoff left Monday for Frank-
fort to accept a position as road super-
visor on an electric car line running out
of Frankfort.Mrs. Mullen has returned to Clover-
port after spending some time, here the
guest of her daughter, Mrs. Ed McKee.Miss Nannie Board, after a visit to
Mrs. Pomp McCoy, left for her home in
Garfield Saturday.Mr. Loyd, representing the Cumber-
land Telephone out of Louisville, was
in town Saturday to attend the Tele-
phone meeting.The Knights of Pythias held their
regular meeting in their hall last Sat-
urday night and added two more gentle-
men to their charter rolls which makes,
in all, about thirty of our good, honest
and upright citizens of Irvington. This
society is about four or five months old
and it has been quite a success all along
and they are expecting a many pro-
sperous months yet to come.Mrs. Bob Hardaway, of Glasgow,
Missouri, and Mrs. Tom Ditto, and Miss
Nellie Munnally, of Louisville, were the
visiting guests at Mr. and Mrs. John
Cox's wedding celebration last Tuesday.The Street Fair people passed through
town Monday enroute to Brandenburg
for this week. The Irvington citizens
are anticipating having them back here
next week and display some of their
work.Dr. Sam Parks purchased at the sale
of Jim Smith's property and house hold
goods last Thursday the horse and lot
for \$455, and it will be sold at once by
Mrs. Sue Jolly, who has charge of the
country stock board.W. B. Biggs made a flying trip home
Sunday before he went on his extended
trip through the South again.Again another couple have the honor
of celebrating their golden wedding an-
niversary that of Mr. and Mrs. John
Cox, who took place at their beautiful
country home last Tuesday, among their
children and grandchildren, of course
every body spent a most enjoyable day
and the host and hostess were the re-
cipients of many handsome presents.Mr. and Mrs. Chris McGeehe, of Long
Branch, were the guests of his brother,
Mr. Fred McGeehe, last Saturday and
Sunday.

to which homeleses' rates apply.Special one way, second class Colon-
ist rates. West and Southwest, Nov.
20, Dec. 4 and 18, 1906; Jan. 1 and
15, Feb. 5 and 19, March 5 and 19, '07

Fast Water-Powers.

To its coal supply, more than twice as
great as the combined coal and Great
Britain, Germany and Pennsylvania; to
its vast stores of natural gas as sup-
plementary sources of power and heat
and light, the South adds at least 3,000,
000 available horse-power of water-
powers for utilization for electrical trans-
mission, also for power, heat and light.The development of this vast water-
power potentiality will eventually em-
ploy \$250,000,000 to \$300,000,000 and
be equal in working capacity to 6,000,000
men. It will make possible construction
of thousands of miles of interurban elec-
tric roads, it will furnish cheap power
and light for mines and factories, and
create, as in Switzerland, the highest
form of skilled mechanical work in the
mountains of the South, where climatic
conditions are unsurpassed by any other
section of the world. In counting up the
riches of the South always bear in mind
its wealth of ever-running streams,
where nature furnishes the power with-
out price except for the cost of develop-
ment. [Manufacturers' Record, Balti-
more.]COLD WEATHER

KENTUCKY.

TARFORK.

O. W. Hendrickson, of near
Cloverport, attended meeting at
Cave Spring Church Saturday be-
fore the fifth Sunday.Mr. Ed Hook and wife spent
Sunday with her brother, Asher
Newby, near Cloverport.Mrs. Monroe Marlow has re-
turned from a week's stay at her
daughter's, at McQuady, where
she had been at the bedside of her
grandchild, who is ill of Pneumonia.Uncle Jack Ewlett, of Jolly
Station, was in our community last
week attending meeting at Cave
Spring.Rev. George Jones, of Pelville,
is conducting a meeting at Cave
Spring. It will probably continue
through the ensuing week. We
have good music and very interest-
ing Sermons.Wid and Clarence Taul, of Mor-
gan, were the guests one day last
week of their brother, Arch.Here is our condensed opinion of the
Original Laxative Cod Liver Syrup: "Nearly
all other cough syrups are constipating,
especially those containing opium.
Kennedy's Laxative (containing) Honey
and Tar moves the bowels. Contains
no opium. Conforms to the National
Pure Food and Drug Law. Sold by
All Druggists.

A Problem at Cambridge.

When Lord Rayleigh, the British
scientist, was a student at Cambridge
the examiners set among other prob-
lems one which they based on an ar-
ticle in a German mathematical period-
ical supposed unlikely to have pene-
trated to Cambridge. Only two men
solved it. Mr. Sturt (Lord Rayleigh)
and another. The examiners asked the
other man about this problem. "Oh,"
he said, "I take the — (questioning
the name of the periodical), and I was
very glad to find that, thanks to a
note in the last number, that prob-
lem came out quite easily." When Mr.
Sturt's turn came they expected a
similar answer, but he astonished them
by replying: "The fact is, gentle-
men, that I sometimes contribute to
—, and I could not help feeling great-
ly flattered that you should have
thought my little problem worthy of a
place in this examination." He was
awarded the prize.

MATTINGLY.

Rev. George Jones, of Pelville, is
holding a series of meetings at Cave
Spring church.Mr. and Mrs. Sam Beavin have two
children sick with malaria fever.B. F. Frank is building an up-to-date
cottage for Isaac Blair, at this place.Mr. and Mrs. Sam Lasley visited re-
latives at West View last Saturday and
Sunday.The three sons of Mr. and Mrs. James
Purrow, who have been sick for some
time are reported better.Mr. and Mrs. Roscoe Blake visited
her parents, Mr. and Mrs. Hardin
Walker, last Sunday.Mrs. William Lynch, of Mattingly,
has been visiting relatives at
Glasgow, Scotland, for some time
arrived home last Wednesday. She re-
ports a very stormy voyage coming
home.Carl, the little son of Mr. and Mrs.
W. O. Perkins, who died at Cloverport,
last Friday, was buried at the Taul
grave yard last Saturday. Their many
friends at this place deeply sympathize
with the bereaved parents in the loss of
their only child.Henry Brickey, son of Gabe Brickey,
while handling a revolver recently, ac-
cidentally discharged it, shooting a hole
through the calf of his leg. Dr.
Kinchele was called and dressed the
wounded member.Wedding bells are ringing in this
vicinity.Gabe Brickey, of Clover Creek, and
Miss May Patterson, of near Cloverport,
were married at Havesville October
30.

R. C. Mattingly is on the sick list.

R. C. Mattingly, of Mattingly, has a
fine crop of apples on hand unsold.Wavy Hawkins, of Cloverport, who
went to Evansville recently, writes he
is well pleased with the city and his
occupation.

has stood the test 25 years. Average Annual Sales over One and a Half Million
bottles. Does this record of merit appeal to you? No Cure, No Pay. 50c.
Enclosed with every bottle is a Ten Cent package of Grove's Chill Tonic, Liver Pills.

Many Persons Have Catarrh of Kidneys But Do Not Recognize It.

DAVID L. JAYCOX.

Mr. David L. Jaycox, Chaplain Clara L. O. G. T. and Chaplain G. A. R., 80 Broadway, Oakland, Cal., writes as follows:

"I am an old war veteran. I contracted severe bladder and kidney trouble. I spent hundreds of dollars and consulted a host of doctors, but neither did me any good. Finally some of my comrades who had been cured by Perna advised me to try it. At once I bought a bottle and it helped me so much that I kept using it for nearly four months. Perna has proven the best medicine I ever used. My pains are gone and I believe myself to be cured. I feel well and would not be without a bottle in time of need for ten times its cost."

THE LOCAL NEWSPAPER

Its Importance Not Appreciated by Some Persons.

It is the local press which serves you in every emergency. There you go in trouble. It is there you go in prosperity. If you want to boom any manufacturing enterprise, any railroad project, for the development of your town, for your lodge to increase your influence, or if your lodge desires to add to its membership or to erect a new hall or in any way advance its interests, the local press is immediately appealed to for help. So it is with our churches. If it is a picnic or a festival, a new carpet or an organ, the local press is found to be useful in furthering every good object. If it is a raid to be made on any of the ambassadors of Christ, the columns of the local paper are used freely and gratefully in advertising the revival or protracted meeting. The candidates and politicians find also the importance of the local press.

Clearly there are many reasons why

How's Your Liver?

It will pay you to take good care of your liver, because, if you do, your liver will take good care of you.

Sick liver puts you all out of sorts, makes you pale, dizzy, sick at the stomach, gives you stomach ache, headache, malaria, etc. Well liver keeps you well, by purifying your blood and digesting your food.

There is only one safe, certain and reliable liver medicine, and that is

Thedford's Black-Draught

For over 60 years this wonderful vegetable remedy has been a standby in thousands of homes, and is today the favorite liver medicine in the world. It acts gently on the liver and kidneys, and does not irritate the bowels. It cures constipation, relieves congestion, purifies the system from an overflow of bile, thereby keeping the body in perfect health. Price 25c at all druggists and dealers. Test it.

A War Veteran Spends Hundreds of Dollars in His Attempt to Cure His Kidney Trouble. He Took Perna Upon a Friend's Advice and It Proved the Best Medicine He Ever Used.

CATARRH of the kidneys is a very much neglected disease. It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some derangement of these organs.

The slight backaches, the feelings of lassitude, and other warning symptoms of kidney disease are overlooked.

They are not serious enough to detain the patient from his regular work.

Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh.

Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it is once firmly seated in the kidneys, it is a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body.

In the kidneys, it is liable to terminate in Bright's Disease or diabetes, both of which are recognized as very serious ailments, if not fatal.

The thing to be done, when catarrh of the kidneys is discovered, is to take some internal, systematic remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in Perna. It reaches catarrh, no matter where it may be located in the body—whether in the more exposed organs of the nose and throat, or whether in the remotest part of the kidneys.

Perna is at once the safest and most reliable remedy for catarrh of the kidneys is proven by the many testimonials written by those who have experienced its benefits.

The testimonial given here is only a specimen of the many testimonials on our records, pertaining to the relief afforded by Perna in severe cases of kidney trouble.

For free medical advice, address Dr. F. R. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

the local press should be cultivated. Yet in spite of all these facts the people most interested in the local paper are sometimes the last to give it their support and are frequently known to buy several metropolitan papers and shut out their local paper altogether. If there is anything in the argument about the advantages of home trade, surely it makes a strong appeal on behalf of the local press, because the money for the paper is always expended where the paper is printed, and if paid out with one hand for subscription, advertising or job printing it comes into the other hand, and thus remains with you. If by any means you find a city or local paper and leave yourself at the mercy of the foreign, you would find out more fully than words or arguments could explain why the local paper should be cultivated—Derry (Mass.) Enterprise.

CELESTRIA.
The King You Have Always Bought
is the
Best
Cough Syrup.

Coughed Up a Bullet.

Portland, Ore., Nov. 1.—In a violent fit of coughing shortly before his death at a local hospital H. L. Mills, an Oregon pioneer of 1876 and a nephew of General Robert E. Lee of the Confederate army, raised from his lungs a bullet which he carried in his body since the civil war. As a member of the Fifteenth New York engineer corps he fought against the army commanded by his mother's brother.

Bryan's Prediction.
Chicago, Oct. 29.—William Jennings Bryan spent Sunday here on his way to Lincoln, Neb., from his eastern tour. He expressed satisfaction over the result of his campaign. "I am satisfied," he said, "that both government and municipal ownership are but a few years off, and that this issue will be the dominant issue in 1908."

White Men's League.
Nashville, Tenn., Oct. 31.—White men of Fayette county, Tennessee, met at Somerville to organize a "white men's league" for protection against a rumored uprising of negroes. It is said that a party of negroes has possession of 80 Winchester rifles and that fact is responsible for the movement. The approaching election has much to do with the agitation.

Public Debt.
Washington, Nov. 2.—The monthly statement of the public debt shows that at the close of business Oct. 31 the total debt, less cash in the treasury, amounted to \$952,171,364, which is a decrease from \$2,074,829.

Famous Strike Breakers.
The most famous strike breakers in the land are Dr. King's New Life Pills. When liver and bowels go on strike, they quickly settle the trouble, and the purifying work goes right on. Best cure for constipation, headache and dizziness. 25c at Severs drug store.

BUNCHED PARAGRAPHS

VERBIAGE CAREFULLY AVOIDED IN THIS COLUMN.

Important Events. Occurring Both at Home and Abroad. Will Be Found Briefly Chronicled and Duly Arranged in This Column.

George Ade denies that he is to be married to Miss Helen Hale, the actress.

H. H. Fisher of Gilboa, O., suicided in his law office. Grieved over recent death of his wife.

Robbers got \$2,700 in Bank of Jamestown, Mo., and escaped.

Bellamy Storer, former United States minister to Austria-Hungary, returned to United States.

Bank of Odia, Ill., dynamited and looted by robbers, who escaped after running battle with citizens.

Business failures in the United States during the week, 184; same week last year, 180; in Canada, 15; last year, 22.

Uniform Snubbed in Kansas.
Leavenworth, Kan., Nov. 1.—Two soldiers of Company K, Eighteenth Infantry, stationed at Leavenworth, were refused admittance to a skating rink here. Captain McFarland, commanding the company, wrote a communication to the military secretary of the state stating that the proprietors said he would admit soldiers only in citizens' clothing. Colonel Hall, commanding the service schools at the fort, in his indignation before sending the letter to the military secretary suggested that if the matter is not remedied there of Fort Leavenworth be directed from that city and that no more troops be sent to the post, which is to be enlarged.

Will Fight It Out.
Mayking, Ky., Oct. 31.—Telephone advice from Drytown are to the effect that the Brown feud factions are arming themselves and another outbreak is expected at any moment. The feud started a week ago, when members of the band clashed in battle. In the fight Harry Brown was desperately wounded. Every effort to effect a truce having proved futile, the factions will fight it out.

The New Pure Food and Drug Law will mark it on the label of every drug containing Opium, Chloroform, or any other stupefying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoop all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures, it does not simply suppress. Get a safe and reliable Cough Cure, by simply insisting on having Dr. Shoop's. Let the law be your protection. We can fully recommend and sell it. Severs Drug Co.

Amesities of the Table.
"I waited ten minutes for a car to-day," the husband was saying, "and then it passed me without stopping." It was afterward recalled that the husbandly silent man had been having unusual difficulty with his chops. "Perhaps," he remarked, "the conductor didn't care to have you board his car."—Exchange.

The Brute.
"What?" asked the sweet girl graduate, "was the happiest moment of your life?"

"The happiest moment of my life," answered the old bachelor, "was when the jeweler took back the engagement ring and gave me collar studs in exchange."—London Tribune.

Special Delivery.
Mrs. Upton— I purchased some socks and a drum for my boy. How does it happen that you have brought only the drum?— "I've seen him, ma'am. I'm the driver of the band wagon; the socks will come in the hose cart."—Woman's Home Companion.

The brain of an idiot contains much less phosphorus than that of a person of average mental power.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys every three minutes.

The kidneys are your blood purifiers; they filter out the waste or impurities in the blood.

If they are sick or fail to do their duty, they fail to do their duty.

Pains, aches and rheumatism come from ex-cessive impurities in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-worked in pumping the blood.

It is to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits.

by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake! Remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Drinking Among Women.

The frequency with which even respectable women drink cocktails, whisky straight and wines of all kinds in public places, especially in large cities, is a matter of common observation, and scenes that shocked us 20 years ago are now passed by without comment. Indeed so common is the drinking among women in our large cities that the situation is often a source of embarrassment to the woman who does not drink.

The disastrous results of dipping among women are already too well known to the physicians, and experience shows that while men who drink often reform women who become victims to drink, are more intractable to reformation.

The medical director of one of New York's leading institutions for nervous and mental diseases recently wrote to me as follows: "The medical profession knows only too well the increasing tendency to tipping among society women and its disastrous results. Fully 70 per cent. of the drug case among women come of first using alcoholic stimulants; overindulgence of fashionable dinners, or other social functions, creates the necessity for the quick recovery from the induced debauch; morphine, or something of a like nature is taken, the inevitable consequence are an increased necessity for stimulants, and a repetition of the drug, increased nervousness and mental degradation follow. Once a woman acquires a taste for stimulants she is in a large degree a hopeless wreck. Especially is this true in the higher circles where sentiment lead and society sanctions."

"Man's idea of what woman ought to be is based upon this conception of what she normally is—higher and better than himself. His own sinful and selfish desires are the main factors in dragging woman down from the pedestal upon which he himself has placed her, and yet with his strange inconsistency he will idolize her if she resists.

If by common consent sin seems blacker in woman than in man, it is because she is by nature purer and has farther to fall.

If I seem to condemn sin the woman more than in the man, I am for that reason paying to woman the highest and best compliment.

Intoxicants are dangerous enough to men, to women they are much more so. Romulus sentenced women to death for intoxication as the beginning of unfaithfulness to the marriage vow.

The virtue of the woman with the drink habit is always in danger.

The effect of alcohol upon woman's will power and sense of moral responsibility are even more marked than in the man, woman's emotional organization being so much more susceptible than that of man.

Any ordinary observer must have noticed in the brilliant cafes of our cities that most women drink as freely and frequently as their male companions.

Twenty years ago if you took a woman to a place of amusement, you might ask her afterward if she would have an ice cream, but now take her to a restaurant and before you ask her if she wants anything to eat, you say to the waiter: "Two Manhattans, please."

But what may be seen in festive assemblies in public places is nothing in comparison with what may be seen in private parlors by those who mingle freely in society. I have seen at such times woman's eyes sparkle with an unquenched fire and the gayest of her merriment was something more than the natural glow of her own spirits.

Since fashion is only another term for public sentiment, I contend that were the higher classes of society to discontinue the moderate use of drink, the effect would be to render drinking fashionable.

I know how tyrannical fashion is, and that there are many persons who would rather be out of the world than out of fashion, but improbable may be the success in changing the custom of society by your emphatic protest, the improbability of your success is no reason for being silent. If you attempt nothing you will accomplish nothing.

Social usages can be more easily changed than at first supposed. If only a small number of women in every community of those who are raised by their wealth and social standing above the accusation of meanness, and by courageously standing alone the suspicion so dreadful to endure, of being fashionable—if only one or two families in each community were to take such a stand, there would be many to follow and a year would show great improvement.

It is woman's influence to which we must look for the change required. If woman really wishes to change the custom, it will be accomplished.—Ex.

Underground Waters of Western Kentucky.

A valuable and interesting discussion of the underground water resources of Kentucky west of Tennessee River is contained in Water-Supply and Irrigation Paper No. 164, just issued by the United States Geological Survey. The investigations made by the Hydrographic Branch of the Geological Survey show that in western Kentucky the underground water resources are largely dependent on the local rainfall. The springs and shallow wells derive their supplies exclusively from the rain falling in their immediate vicinity, while the rocks from which the deep wells obtain waters are supplied by the rain that falls within the state or in the area just west of Mississippi River. In only a few cases do deep wells pierce the hard rocks that lay beneath the soft sands and clays. In Water-Supply Paper No. 164, which may be obtained on application to the Director of the United States Geological Survey at Washington, D. C., are discussed the general conditions that govern the occurrence of water in wells and the relation of the geology of the region to the supply of underground water. These general discussions are followed by detailed descriptions that show the water conditions in each county, the depth at which water may be obtained, and the height to which it rises without pumping.

The best treatment for indigestion and troubles of the stomach is to rest the stomach. It can be rested by starvation or by the use of a good digestant which will digest the food eaten, thus taking the work off the stomach. At the proper temperature a single teaspoonful of Kodol will wholly digest 3,000 grains of food. It relieves the present annoyance, puts the stomach in shape to satisfactorily perform its functions. Good for indigestion, sour stomach, flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure Food and Drug Law. Sold by All Druggists.

The Human Head.
An Irishman once defined the human head as "a bulbous excrescence of special use to many as a peg for hanging a hat on, as a barber's block for supporting wigs, as a target for shooting at when rendered conspicuous by a shining helmet, as a snuffbox or a chamber, as a machine for fitting into a halter or guillotine, as a receptacle for frocks, fancies, follies, passions, prejudices, predilections—for anything, in short, but brains."

TO CURE A COLD IN ONE DAY.
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

A WEEK'S HAPPENINGS

RELATING TO AFFAIRS IN THIS AND ADJOINING STATES.

Pitched Battle Between Railway Employes—Attendants of Asylum Convicted of Maltreating Insane Inmate—Convict's Clever Dodge.

Louisville, Ky., Oct. 29.—A pitched battle with picks and shovels and clubs as weapons, in which 400 men participated, was fought by rival track-laying gangs of the Louisville & Nashville railroad and the Louisville & Eastern Electric railways. About two scores of the combatants were badly battered up, but none was seriously wounded. The fight took place just east of Beards, 20 miles east of Louisville, where a gang of 100 Louisville & Eastern men attempted to lay their track across the Louisville & Nashville line. They had only partially finished their work when 300 L. & N. men appeared and started tearing up the rails. A general battle followed immediately, during which the Louisville & Eastern men reacted to the novel expedient of changing the rails they had laid with electricity from a trolley wire. When the L. & N. men applied their crowbars to the charged rails a score of them were knocked stiff. All, however, soon recovered. County officials of Oldham county put an end to the fight and arrested two dozen of the leaders on each side.

Asylum Attendant Convicted.
Lexington, Ky., Oct. 29.—After 12½ hours' deliberation the jury which tried Daniel M. Adams, a former attendant at the Eastern Kentucky asylum, charged with the murder of Fred Ketterer, a patient there, returned a verdict finding Adams guilty of assault and battery and fixing the punishment at one year's imprisonment in the county jail. The verdict is criticised adversely by many people. Fred Pharis, charged with the same murder, was sentenced to five years in the penitentiary last week. M. W. Laggett, charged with the same crime, will be tried this week.

Located in a Cave.
Mayking, Ky., Nov. 2.—The alleged double criminal, murderer, and outlaw, Joe Davidson, who is charged with stabbing to death John Trivitt, on Live Fork creek, two months ago, was located, heavily armed, in a cave in the Cumberland mountains at the head of Live Fork. A posse went to the scene, but an attempt to arrest Davidson in his stronghold means loss of life. He fought through such celebrated wars as the French-Evermore and the Hatfield-McCoy feuds. There is a reward of \$300 offered for him.

Students and Police Fight.
Lexington, Ky., Nov. 1.—In a fight between 600 Kentucky State college students and policemen here four policemen were struck on the head with rocks and severely injured. The college students were playing ballroom pranks and attempted to pry a streetcar from the track, when the patrolmen arrived on the scene. The students immediately set out rocks and began pelting the policemen. Reserves were called and five of the students were arrested.

Carvers Incarcerated.
Richmond, Ky., Oct. 29.—John Park, James White and Thomas Graves of Clay's Ferry, farmers, were found guilty of having maliciously cut James Townsend, a Whitehall farmer, Jones and John White were fined \$250 each and given six months in jail. The other two, Park White and Graves, were fined \$120 each and given six months in jail. Townsend was returning from a church entertainment when attacked by the four men.

Death of J. P. Amsden.
Lexington, Ky., Oct. 20.—After lingering two weeks with pneumonia, J. P. Amsden, 102, of Versailles, Ky., president of the Louisville and Atlantic railroad, and president of the J. P. Amsden Banking company of Versailles, died here. He was stepfather to J. B. Haggin, one of the most widely known turfmen and copper mine owners in America.

Students Before Grand Jury.
Lexington, Ky., Nov. 2.—Practically every one of the 300 students boarding at the two dormitories at Kentucky State college in this city will be summoned to appear before the grand jury on account of the affray with the policemen. President J. K. Patterson of the college was before the grand jury and other members of the faculty will appear. Seven students are under arrest.

Will Move Railroad Shops.
Blue Ridge, Ky., Nov. 2.—The railroad shops of the Atlanta division of the Louisville & Nashville railroad, which have been here 10 years, will be removed at once to Etowah, Tenn. The removal affects a number of employes. No reason is assigned.

Wanted by a Mob.
Mayking, Ky., Oct. 29.—Charged with attacking Miss Mary Qualls of Norton, John Depesey, 35, of Appalachia, was arrested, thereby escaping an infuriated mob organized at Blackwood to lynch him. Depesey was taken to the Wise county prison.

Tobacco Man Falls.
Louisville, Ky., Nov. 2.—Edgar D. Martin of the tobacco firm of H. M. Martin & Co., filed a petition in bankruptcy listing liabilities of \$161,761 and assets of \$90, on which exemption is claimed.

Saved Out of Jail.
Lancaster, Ky., Oct. 29.—Willie Ball, charged with horse-stealing, broke jail here by sawing the bars of his cell. He took table knives from the jail kitchen and converted them into saws.
